SKILLS

- **Programming Languages** : Java, SQL, HTML, CSS, JavaScript
- **Frameworks/Library** : Springboot, React, Bootstrap
- **Operating Systems** : Linux
- **Tools** : Git, GitHub

APPRENTICESHIPS

Junior Full Stack Java Developer Trainee

Tata STRIVE, Hyderabad | April-2025 – Present

- Undergoing comprehensive training in Full Stack Development including Java, SQL, HTML, CSS, JavaScript, React, Spring, Spring Boot, Linux, Git/GitHub, and Agile methodologies.
- Collaborating on BookNest, an eLibrary project, applying learned technologies to build a functional web application with end-to-end features.

PROJECTS

BookNest – Online e-Library Web Application (In Progress)

- Designed and implemented a secure role-based authentication system using Spring Boot, Spring Security, and JWT, enabling separate feature access for users and administrators.
- Developed a user-friendly React.js frontend allowing users to browse books, add titles to a reading list, and read PDF books online.
- Created a feature-rich admin dashboard with full CRUD functionality for managing book data, including PDF file uploads and metadata editing.

ACHIEVEMENTS & PERSONAL JOURNEY

- **G. Pulla Reddy Trust Scholarship** – Awarded for academic excellence.
- **Best Performance Award** – 10th Grade – Recognized for outstanding academic performance.
- Recovered from a major road accident that led to the loss of fingers on the right hand. Learned to write with the left hand in the hospital and completed B.Tech on time.
